TIP OF THE WEEK

DEVELOPING EMPATHY IN CHILDREN

What is Empathy?

- Empathy is the ability to understand and respect the perspective of others, and the root of a child's ability to be kind and compassionate.
- Empathy is the ability to truly show compassion, understand another person's experience, and walk in someone else's shoes.

How Do Children Learn Empathy?

Children learn empathy both from watching us and from experiencing our empathy for them.

When we empathize with our children they develop trusting, secure attachments with us. Those attachments are key to their wanting to adopt our values and to model our behavior, and therefore to building their empathy for others.

Strategies to Teach Empathy at Any Age

1. Model Empathy

- ✧ Consider small acts of kindness you can do together with the children — eg. donating a toy for a needy child.
- ✧ Demonstrate kindness & compassion at home, at church, & in the community.
- ✧ Pounce on teaching opportunities--involve your child in conversations when you witness a situation when someone is involved in an emotional experience.
- ✧ Point out rude or disrespectful behavior--hold back sharp comments. Ask and explain. Empathize with your child.

2. Discuss Emotions

- ✧ Talk about others' feelings — "Jean is very sad because you took her dolly." "Can you give her back & you can choose another toy to play with."
- ✧ Read stories about feelings and talk about it. Suggest how to show empathy — "Let's get Johnny some ice-cream after he hurt his knee."

3. Make Caring for Others a High Priority & Set High Ethical Expectations

- ✧ Consider the messages you sent to your children. You might say, "The most important thing is that you are kind and that you are happy."
- ✧ Prioritize caring when you talk with other adults like their teachers or coaches.
- ✧ Have children help around the house, be polite even when they are in a bad mood and be kind to others.

4. Provide Opportunities for Kids to Practice Empathy

- ✧ Encourage empathy for peers — ask them about their classmates.
- ✧ Discuss with your child ethical dilemmas that help them appreciate various perspectives, e.g. "Should I invite a new neighbor to my birthday party when my best friend doesn't like her?"
- ✧ Take your child out to do kind deeds to help the neighbor mow the lawn or run errands.

FUN FACTS FOR KIDS

LILIES

This month we are sharing facts about different plants.

DID YOU KNOW?

- Lilies have 6 petals and 6 stamens with anthers.
- Lilies have large petals that can be white, yellow, orange, red, purple or pink in color. They can even have freckles! In fact, the Tiger Lily is named for its orange petals with brown spots.
- Lilies are said to be one of the top ten flowers in the world.
- Only white and tiger lilies are known by their beautiful smell. Other species of lily are odorless.
- Lilies are poisonous to cats, so keep your furry friends away from them.
- Lilies can survive a couple of days in the vase. Removal of the pollen from the flower will prolonged lifespan in the vase and prevent development of stains on the tepals.
- Lilies are perennial plant which means that they can survive more than two years in the wild.

CONSIDER THE LILIES.....

HOW THEY GROW
THEY DON'T TOIL
NOR SPIN BUT I
TELL YOU.. EVEN
